

simpliFi[®] REMOTE ARRANGEMENTS

Wilbert's **simpliFi[®]** program simplifies the **Outer Burial Container** presentation utilizing a straightforward graphic combined with a short informational video. We developed two remote presentations for you to choose from when working with your families during these challenging times.

Version 1 takes the family completely through the simpliFi burial vault presentation and allows you to step in after the 3-minute video to answer questions, provide options, and address pricing:

www.wilbert.com/burial/simplifi-presentation

Version 2 allows you to guide the family through the burial vault selection process by using the simpliFi program "*Funeral Professional Guide*". Following the guide, you show the family the "*Outer Burial Container Choices*" graphic and the educational video allowing you to interact with the family as they learn about OBC options to make their selection:
